Draft 11-06-08

WGDR Programming Committee Working Group Meeting

Participating Dave Ferland, Cynthia Johnson, Charles Rossell, Carl Etnier

We discussed shows that Cynthia previewed, these 3 all come from Pacifica.

Law and Disorder is similar to much content we already have, it will be put on the back burner for now. Explorations a science program bears further investigation, Charles will get another episode for further scrutiny, the 420 drug report has not yet been fully listened to.

Cynthia received 2 episodes of Deconstructing Dinner produced in British Columbia to review and will report back at our next meeting.

We continued our discussion about the past and future of how time slots are filled at WGDR, and whom those slots serve.

A desire for oral history type programming has been Identified. Dave will look into the PRI show "The Story", and report back. We will look into producing local 1 hour shows in that vein. We will check with local historical societies for what they may already have that we could use.

A need for more, and a desire to participate in local stories and empowering ie(how to) public affairs programs has been identified. To fill that void we will attempt to air a once a monthly magazine type show aired on the first Friday of each month. Dave and Charles will contact programmers that have already expressed an interest in doing this type of programming to solicit their participation. Dave and Charles committed to producing this show for now. Carl committed to submit content. If you would like to participate contact Dave or Charles. Content needs to be in by the last of the month.

6. The next meeting is set for Thursday December 4th at 10:00 AM, all are invited
